## Charter

STATE OF ILLINOIS,  
DEPARTMENT OF STATE.

WM. H. HINRICHSEN, Secretary of State.

*To all to whom these Presents shall come, Greeting:*

WHEREAS, A Certificate, duly signed and acknowledged, having been filed in the office of the Secretary of State, on the 14th day of December, A. D. 1895, for the organization of "The Physicians' Club of Chicago," under and in accordance with the provisions of An Act Concerning Corporations, approved April 18, 1872, and in force July 1, 1872, and all acts amendatory thereof, a copy of which Certificate is hereto attached.

Now, Therefore, I, WILLIAM H. HINRICHSEN, Secretary of State of the State of Illinois, by virtue of the powers and duties vested in me by law, do hereby certify that the said, "The Physicians' Club of Chicago," is a legally organized Corporation under the laws of this State.

*In Testimony Whereof*, I hereto set my hand and cause to be affixed the great Seal of State. Done at the City of Springfield, this 14th day of December, in the year of our Lord one thousand eight hundred and ninety-five, and of the Independence of the United States, the one hundred and twentieth.

SEAL.

W. H. HINRICHSEN,  
Secretary of State.

Recorded in the office of the County Clerk of Cook County,  
February 23rd, 1897.

## Historical

THE Physicians' Club was formed by the union of the Doctors' and Practitioners' Clubs. The former had a membership almost wholly on the South Side, while the latter was composed of members from every part of the city. Their aims and purposes were similar, viz.: to promote sociability and good fellowship among the members of the profession, and to discuss at monthly meetings general topics of current interest related in any way to medical affairs.

It was thought that a combination of these forces would be more useful and more productive of good than both operating singly.

In answer to an invitation from the Executive Committee of the Practitioners' Club, the Executive Committees of both Clubs met October 14th, 1895, and agreed to advise consolidation of the membership, and that the Doctors' Club amend its Charter by inserting the word "Physicians'" in place of the word "Doctors'." It was further agreed that all members in good standing, in either of the Clubs, should be members of the new organization; that the membership should be limited to 250; that the annual dues should be \$2.00; and that monthly meetings, with dinners and discussion should be the order, as heretofore.

The Reports of the Committees were discussed by each of the Clubs in special session, and adopted by vote.

The first meeting of the new organization was held at the Union League Club, Monday evening, Nov. 25th, 1895. Dr. John Ridlon presided, and sixty-five members from both of the old Clubs were present. The new Constitution and By-Laws, which had been formulated and endorsed by the Executive Committees in a joint session, were presented and adopted.

With the notice for the meeting of January 25th, 1897, at which the subject was discussed "What is the attitude of the

Physicians' Club in local political affairs?" a postal card vote was taken, which resulted almost unanimously in the resolution that the Club should take some active part in local municipal affairs.

Final action upon this question was deferred until the meeting of the Club which was held February 22nd, 1897. The following resolutions were adopted:

*Whereas*, The necessity is apparent for every good citizen to use his influence to promote local good government, and

*Whereas*, It appears that the Physicians' Club may reasonably undertake as an organization that which each individual may undertake, therefore,

*Be it Resolved*, That the Physicians' Club shall, in a non-partisan way, exert its influence for good government in Chicago.

*Resolved*: That no discussion or action upon a question which is of a partisan or party character shall be tolerated.

*Resolved*: That a committee of five, which may be called a Good Government Committee, be appointed by the Directors, which committee shall act in conjunction with the Civic Federation, the Municipal Authorities League, and other organizations for similar objects, that none but good men may be nominated for local offices, and that the members of the Club may be informed as to the best men before them for their suffrages.

*Resolved*: That it is the sense of the Club that all medical offices be filled by medical men.

This committee took immediate action and issued a circular to nearly all the physicians and dentists of Chicago, containing information and advice concerning the candidates in the spring municipal election.

The Physicians' Club of Chicago represents the liberal-minded element in the profession. It takes cognizance of political and sociological conditions which relate to medical practice and principle. It has denounced, in no uncertain manner, partisan favoritism in the management of our health department. It has taken exception to irregularities in the

administration of public charities and the control of eleemosynary institutions. It has criticised any apparent deviation from professional etiquette. It has discussed with freedom some of the vagaries of contemporaneous practice. It has invited to participate in its discussions and has treated in a tolerant manner, persons holding all sorts of opinions on all sorts of questions. It is an open arena to which is invited the expression of the most diversified views on matters pertaining to the welfare of society. It seeks the truth, and its endeavor is to foster a spirit of altruism among its members.

Its meetings are well attended and the consideration of live topics of the day has often been animated. The Club is constantly growing in usefulness, and it occupies today a higher and more influential position in public estimation than ever before. The period just passed has marked the best in the life of the Club—may we not hope and work for still greater achievements in the years to come?

Because of the broadening scope of the work of the Club, and the fact that there has repeatedly been upon the waiting list, a large number of applicants for membership, the Constitution was amended, the annual dues being increased to two dollars and fifty cents, and the active membership to three hundred.

# Constitution and By-Laws

AS ADOPTED AND AMENDED

## SECTION 1.

The purpose of this Club shall be to promote good fellowship among its members, to encourage high ethical standards, to advance the interests of the Medical Profession, and to discuss, at stated meetings, topics of current interest relating in any way to medical affairs.

## SECTION 2.

The membership shall be composed of active, non-resident and honorary members, the limit of active membership being 300 and of non-resident 50.

## SECTION 3.

Hereafter any male member of the regular Medical Profession in good standing shall be eligible for active membership. In order to become a member he shall present to the Directors an application, in writing, stating his name, address and the place and date of his graduation in medicine, which application shall be indorsed by at least two members of the Club. The membership fee of five dollars shall accompany the application, to be returned to him in case he fails of election to membership.

Any regular male physician, residing outside of Cook County, may apply for non-resident membership in a similar manner.

When so instructed by the Board of Directors, the Secretary shall post, on the announcement of a regular meeting, the names of candidates for active and non-resident membership. At a meeting of the Directors subsequent to this an-

nouncement they may vote upon such candidates, the affirmative vote of six members of the Board being requisite for election.

The Directors may elect to Honorary membership any layman or physician who, in their judgment, seems fit. Honorary and non-resident members shall be entitled to all the privileges of the Club excepting the right to vote and hold office, and shall be exempt from annual dues.

#### SECTION 4.

The officers of the Club shall consist of a Secretary, who shall be *ex-officio* a member of the Board, and of six Directors, three of whom, together with the Secretary, shall be elected by the Club at each annual meeting in May. The Secretary shall hold office for one year, and each Director shall hold office for two years from the date of his election.

#### SECTION 5.

The Board of Directors shall organize by selecting from their number one to be President of the Board, who shall preside at all of the regular meetings of the Board, and also at all special business meetings of the Club, and at the regular annual meeting. The Board of Directors shall have the government and control of the Club and management of its business affairs. They shall have power to elect members after they have been properly posted. They may also suspend or expel members by ballot for sufficient cause within the provisions of Section 10. They also shall elect a Treasurer from their own number, whose term of office shall be one year.

#### SECTION 6.

The Board of Directors shall designate one of the members of the Club to act as Chairman at each monthly meeting of the Club, but no member shall serve as Chairman twice in the same year.

#### SECTION 7.

There shall be a repast at each meeting of the Club, after which the discussion of the program shall be in order.

#### SECTION 8.

The annual dues of active members shall be \$2.50, payable within three months from the beginning of the fiscal year, dating from June 1st. Failure of a member to pay his dues within a reasonable time shall constitute sufficient cause for his expulsion.

#### SECTION 9.

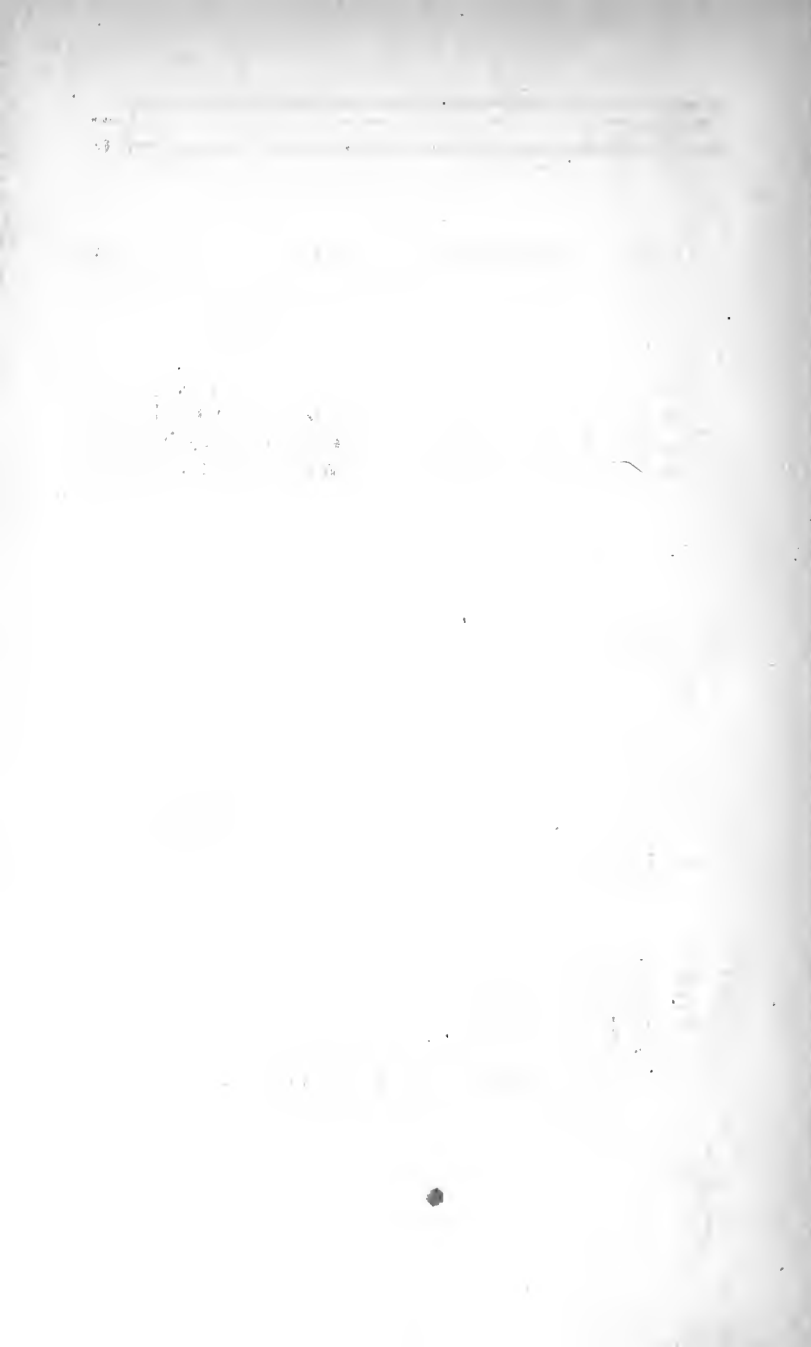

Each member may invite guests to any meeting except a business meeting, he being responsible for the extra covers thus provided.

#### SECTION 10.

Conduct unbecoming a physician and a gentleman shall constitute sufficient cause for the expulsion of any member. Charges of such misconduct shall be preferred to the Directors, and the member so accused be permitted a hearing before them. Such member may be expelled by the affirmative vote of not less than six members of the Board.

#### SECTION 11.

Amendment of the Constitution and By-Laws may be made by a three-fourths vote of the number present at any meeting of the Club, provided due notice has been given at the preceding meeting, and such notice sent to each member with the regular announcement of the meeting at which the amendment will be acted upon.

## PROGRAMS

---

The following Programs have been presented at Regular  
Meetings of the Club

---

NOVEMBER 25, 1895

First Meeting of the new organization  
at the Union League Club

Sherman House

*Subject:*

"THE RELATION OF THE PHYSICIAN TO COMPUL-  
SORY SICKNESS AND INVALIDITY INSURANCE"

*Chairman:* DR. C. S. BACON

Governor Deneen last year appointed a commission, of which Prof. C. R. Henderson of the University of Chicago is secretary, to investigate the subject of compulsory governmental insurance. Professor Henderson has studied the question at close range abroad, and addressed the Club on the "Principles of Sickness and Invalidity Insurance for Workingmen." Governor Deneen is very much interested in the question and promised to be present. Undoubtedly one or more bills bearing on this general subject will be introduced at the next meeting of the legislature, and it is the duty of physicians very early to acquaint themselves with the trend of possible future legislative action. DR. FRANK BILLINGS led the discussion.

MAY 22, 1906  
Sherman House

LADIES' NIGHT
